- Draw and label the contents. **(03 marks)**

b) Which soil property is being investigated? **(01 mark)**

.....

.....

c) Give the importance of the property named in b (above) on crop production. **(04 marks)**

.....

.....

.....

.....

.....

.....

d) Outline two other soil factors that may affect crop production. **(02 marks)**

.....

.....

.....

.....

.....

.....

2. Specimen P belongs to a tractor system.

a) Name the tractor system to which the specimen belongs. **(01 mark)**

.....

.....

b) What is the function of the specimen in a tractor? **(01 mark)**

.....

.....

c) Give four features of specimen P which enables it perform its function. **(04 marks)**

.....

.....

.....

.....

d) Give four effects that will occur to the tractor if specimen P is not functioning properly.

(02 marks)

.....

.....

.....

.....

.....

.....

e) State two ways of maintaining specimen P in a good working condition. **(02 marks)**

.....

.....

.....

.....

3. Specimens H₁ and H₂ are crops attacked by diseases.

a) State the organisms responsible for the spread of the diseases. **(02 marks)**

H₁.....

H₂

b) Observe the specimens and state two signs in each case.

(02 marks)

H₁

.....

.....

.....

H₂

.....

.....

.....

c) Give three cultural methods of controlling the diseases in the affected crops.

(06 marks)

H₁

.....

.....

.....

.....

H₂

.....

.....

.....

.....

4. You are provided with specimens K and L which are animal parasites.

a) Classify the specimens.

(01 mark)

.....

.....

.....

.....

.....

.....

b) State two effects of each specimen on its host.

(02 marks)

K

.....

.....

.....

L

.....

.....

.....

c) Give two features which enable each specimen to survive as a parasite.

(04 marks)

K

.....

.....

.....

.....

L

.....

.....

.....

.....

d) Suggest three ways a farmer can control the effects of K in animal production **(03 marks)**

.....

.....

.....

.....

.....

5. You are provided with specimen Q₁, Q₂, Q₃, Q₄ and Q₅ which are workshop tools.

a) Describe how you would use each of the specimens to construct a brick mould.

(2 ½ marks)

.....

.....

.....

.....

.....

.....

.....

b) Observe the specimens carefully and state one feature in each which enables the specimen Perform their function.

(2 ½ marks)

.....

.....

.....

.....

.....

.....

.....

c) List three factors which affect the quality of the mould.

(03 marks)

.....

.....

.....

.....

.....

.....

.....

d) Give two ways of maintaining the tools in good working conditions.

(02 marks)

.....

.....

.....

.....

End -
